VOLUME 7

CHAMPION, (Alberta) THURSDAY, MAY 13, 1926

NUMBER 50

## SAVOY CAFE

Our patrons say we are giving the best meals and service that has ever been available in Champion. Our prices, too, are recognized as very reasonable. We feel sure you can convince you this estimate is correct, and suggest a trial at least.

Leo. M. Roberts.

## Dr. R. R. McIntyre

DENTIST

714 Herald Block, - Calgary.  
Will treat Champion all day Tuesday each week.  
Appointments may be arranged at Moffatt's Hardware.

## J. FRED SCOTT LL.B.

Barriester, Solicitor, Notary Public, of 213 Lancaster Building Calgary, will be in Champion every Thursday afternoon, in old Municipal office.

Champion Lodge

No. 84.

A. F. & A. M.

G. R. A.

Meets second Thursday in each month. Visiting brethren welcome.  
CHAS. McLEAN, E. F. CRAWFORD  
W.M. S.S.

## Champion Amateur Players

### Enthuse Large Audience

McCullough's hall was taxed beyond capacity on Friday night when the comedy mystery, "The Great Impersonation," or "Home Came Ted," was presented by the Champion Amateur Dramatic Society, under the direction of Mrs. W. S. Ryan. It has only been on rare occasions that such an audience has been present in the hall and, it may safely be said, never has a better pleased audience left the hall at the conclusion of an evening's entertainment.

The stage was tastefully decorated for the occasion, the properties being well selected and appropriate. The lighting and lighting effects were exceptional, as is always the case where J. M. Moffatt has a free hand with the electric fittings, in fact those acquainted with the material available wondered how such general effects were attained.

From the beginning of the first act the play received and held the undivided attention of every person in the hall, and the many humorous situations were highly appreciated. The practically perfect allotment of the different characters, together with the absence of any hitch in the presentation, which the audience could detect, was a high tribute to the director in charge, as even perfect amateurs have their limitations. Below the cast is reproduced:

### DRAMATIS PERSONAE

Steele Kelly	..... The Clerk	..... W. A. McIntyre
Diana Garwood	..... The Heiress	..... Miss J. Gooderham
Miss Loganberry	..... The Spinster	..... Mrs. W. Williamson
In Stanger	..... The Villain	..... M. Moffatt
Ami Jubilee	..... The Cook	..... Mrs. H. Johnson
Mr. Man	..... The Mystery	..... J. D. Henderson
Jim Ryker	..... The Lawyer	..... P. M. Spence
Joelle Macklin	..... The Housekeeper	..... Mrs. G. Campbell
Bernietta Darby	..... The Widow	..... Miss H. Woodhall
Ted	..... The Groom	..... W. J. Bretall
Elvie	..... The Bride	..... Miss L. Watkins
Senator McCurkie	..... The Father	..... W. S. Ryan

SCENE—Office and reception room of Windermere Lodge in the Rocky Mountains.  
ACT I—An afternoon in April. What happened to Ted?  
ACT II—The same night. Who was the burglar?  
ACT III—The next morning. Who was Mr. Man?  
(Produced by special arrangement with T. S. Denison and Company of Chicago.)

To attempt to mention the individual merits of the players would be invidious, without going over the entire list as every one was at his or her best. The fact that several invitations have been received to play at other points is an indication of the general high quality of the work done.

A dance followed the play which was very largely patronized, bringing to a close an evening to be remembered. The financial proceeds amounted to \$232.

After the play the characters and director were banquetted at the Savoy Cafe by the Women's Institute, under whose auspices the play was put on.

## Flower Show

August 28th

The annual flower show under the auspices of the W. I. will be held August 28th. All school children in community are eligible to enter, and are urged to enter for their flowers, so their entries will be worth showing. Study well the following prize list:

Dahlias, six or more	..... 75	50
Gladioli, six or more	..... 75	50
Globetrees, twelve or more	..... 75	50
Sweet Peas, entered in one color only	..... 75	50
Snap Dragons, six or more	..... 50	25
Asters, six or more assorted	..... 50	25
Zinnias, six or more	..... 50	25
Marigolds, two dozen	..... 50	25
Cosmos, two dozen	..... 50	25
California Poppies, two dozen	..... 50	25
African Daisies, two dozen	..... 50	25
Panicles, two dozen	..... 50	25
Sweet Peas, two dozen mixed	..... 50	25
Best collection wild flowers pressed	..... 50	25
Nectarines arranged in bowl or basket	..... 50	25
Best assorted bouquet	..... 1.00	
Best table decoration	..... 1.00	
Special prize for highest and largest Sun Flower	..... 1.00	
Special prize for best display of variety of flowers	..... 1.00	
Special prize for best collection of new variety of flowers	..... 1.00	

Miss May Ulrich was a visitor from Calgary during the week.

Mr. and Mrs. H. Anderson and Miss T. Williamson motoried to Calgary during the week.

## W. I. Holds

Interesting Meeting

The W. I. meeting Tuesday afternoon, was well attended. There were twenty-six ladies present. Mrs. Ulrich's paper on Agriculture was splendid, and was followed by a very interesting talk on the planting and caring of small fruits, shrubs and flowers by Prof. Bayfield, of Claresholm. Mrs. James delighted all with a very pleasing piano solo, and Mr. Campbell accompanied by Miss Archibald sang "Dear Little Mother o' mine." Further arrangements were made for the flower show to be held the latter part of August. Also arrangements were made to have a bake sale next Saturday evening, from 7.30 to 10 o'clock, to be held in Hoskins' store, Mrs. Hammett to be in charge. Mrs. G. F. Smith moved a hearty vote of thanks to Mrs. Ryan in the capable way she supervised the play, and for the splendid success derived in every respect. The next meeting will be held at the home of Mrs. Wm. Ulrich.

E. W. Paiton, of Victoria, B. C. is in town looking after property interests.

Art Anderson, of Calgary, was in town on Tuesday, visiting at the farm while here.

## Sport Shirts

Just Arrived—the very latest in Shirts, with Sport Collars and knitted Wrist Bands, in light weight wool and varied colors. Boys! this is Snappy Merchandise for everyday lounge wear.

## Dress Pants!

We have a wonderful selection of material and shades for young and old. Balloons for the young and more conservative for the old.

## Groceries—This Week End.

Kraft and Golden Loaf Cheese, 5 lbs. \$1.95  
Special : Strawberries Friday and Saturday.

## B. M. ROBERTS

## May is Usually a Month for Planning

Planning for summer vacations and planning for summer wardrobes.

Before selecting your new summer style and fabric, may I suggest a few necessary articles, such as your summer underwear, corsets, combination skirts and trassieres. If you are properly fitted to either one, you will find it easier to plan a new dress for sport, afternoon or evening wear. Look over my stock and you will find everything you need.

If your old hat needs new trimming and alteration, bring it in, I will be glad to suggest something new.

MRS. THERRIALT

## Seed Potatoes

Just in, fancy Early Ohio Seed Spuds  
Per Bushel \$2.50

## Coyote Pancake Flour and New Maple Syrup

Mothers! The Children are Howling for it.

Everything in New Green Stuff.

CAMPBELL'S

"Where They All Go."

Friday @ Saturday  
May 14 @ 15

## Jack Pickford in "Garrison's Finish."

A Great Story of the Real Kentucky Derby.

Jack Pickford is at his best as the jockey-hero in this picture and Madge Bellamy, his leading lady, serves as an ideal romantic foil. Some of the horse-race scenes which form a part of this film and which were obtained at Louisville and New York are described as the best work in the annals of perfection so far as photographic reproduction can possibly make it. The fact that Mr. Pickford spent so much time and money in getting right on the ground where the biggest racing events take place is much to his credit since it contributes a great deal to the realism for which the screen strives nowadays.

Coming Next Week, Betty Bronson in "The Golden Princess."

Friday @ Saturday  
May 14 @ 15

THE CHAMPION CHRONICLE  
B. N. Woodhull, Publisher.

Advertisements of Wanted, Lost, Found, Strayed, etc., not exceeding one inch, 50c cents for first insertion 25 cents for each subsequent insertion. Commercial rates on application.

THURSDAY, MAY 13, 1925

## NOTES AND COMMENT.

The year 1925 was not by any means a bumper year as regarded the production of grain, but the results attained would indicate that there are few places to be found in the world where farming results are more favorable. The figures given below of shipments, while not absolutely correct, are very close to actuality:

Wheat, 600,000 bushels.....	\$1,000,000
Cattle, 1,120,000.....	40,000
Horses, 20,000.....	4,000
Sheep, 305,000.....	4,000
Hogs, 528,000.....	60,000
Dairy products.....	7,500
Eggs, 3,000 cases.....	1,300
Poultry, 10 tons.....	2,000
	\$1,080,300

It is estimated that there are two hundred farmers who deliver their produce to this point, so in consequence each individual produced for export means \$5,400 worth of grain and other produce. Can you beat it anywhere?

Whether a man agree with the speaker or not the address delivered at Bassano by J. T. Shaw, recently elected Liberal leader, in accepting the nomination for Bow Valley constituency, is impressive. The faults of the present provincial administration were pointed out and the remedy outlined clearly enough to reach any elector whose mind was open to any convictions regarding provincial issues, and while the administration was condemned on many issues there was not an expression which could possibly offend his opponents except his disagreement with their methods of administration. Capt. Shaw's entrance into provincial politics promises to rouse an increased interest in provincial issues on the part of the electors generally.

The annual convention of the Western Canada Irrigation Association will be held at Medicine Hat July 27, 28 and 29 this year. One of the prominent speakers will be L. D. O'Donnell of Billings, Mont., an irrigationist who pays particular attention to sugar beets. Owing to the establishment of the new sugar beet industry in the irrigated districts of southern Alberta, Mr. O'Donnell's addresses will be interesting.

High River  
Presbytery Meeting

The High River Presbytery of the United Church, met in session at Vulcan on Tuesday and Wednesday, May 12 and 13. Rev. G. G. Webber of Claresholm, chairman of the presbytery presided, and twenty members answered the roll call at the opening session. It was reported that the following ministers in the presbytery had applied to the Conference Settlement Committee for new charges: Revs. H. M. Horricks, Carmangay, J. Lee, Champion, G. G. Webber, Claresholm, and G. H. Levers, Parkland. Several memorials regarding suggested legislation were sent forward to the conference for transmission to the General Council. The following lay delegates were elected to the conference to be held at Edmonton on May 10th and following days: Norman Young, Ensign, Mrs. W. H. Miller,

Carmangay, W. Campbell, Cayley, E. F. Crawford, Champion, Jas. McKinlay, Claresholm, A. McEwen, Graman, G. Mack, High River, C. H. Macphail, Nanton, M. McDougall, Okotoks, C. E. Spencer, Parkland, Mrs. Dawson, Vulcan, and J. Sutor, Blackfoot. The subsequent officers: John May, Nanton, J. W. Morrow, Claresholm, M. MacLaren, Carmangay, A. Dawes, Blackfoot, and W. C. Hoskins, Champion. It was reported that the presbytery had raised the sum of \$0.526.00 for the Maintenance and Extension Fund. The Vulcan ladies entertained the members of the presbytery to a splendid supper on Tuesday evening and the Mayor accorded the delegates a hearty welcome to the town. The next meeting of presbytery will be held at Cayley on invitation.

Southern Alberta  
League Schedule

May 10th—Blackfoot at High River, Nanton at Red Cross, and Stavelly at Champion.  
May 26th—High River at Blackfoot, Red Cross at Nanton and Champion at Stavelly.  
June 2nd—Blackfoot at Stavelly, Nanton at High River and Champion at Red Cross.

June 9th—High River at Nanton, Red Cross at Champion and Stavelly at Blackfoot.  
June 16th—Blackfoot at Red Cross, Stavelly at High River and Champion at Nanton.  
June 23rd—High River at Stavelly, Red Cross at Blackfoot and Nanton at Champion.  
July 7th—Blackfoot at Nanton, Stavelly at Red Cross and Champion at High River.

July 14th—High River at Champion, Red Cross at Stavelly and Nanton at Blackfoot.

July 21st—Red Cross at High River,

Sowing Gardens  
In Alberta

(Experimental Farms Note).

In many parts of Alberta the spring and early-summer weeks are often rather dry and windy. During this time the temperature may or may not be favorable for growth. Frequently the seed bed dries out before the vegetables have germinated or rooted. Grains may be drilled into the moisture, but most garden seeds are so small that fairly shallow planting is called for, and this may place them in a dust-bed, with a long wait for rain.

Wind protection by shelter belts and intersecting hedges, or even by tight fences, is a great help but is not always available in the pioneer stage. Deep stirring of the soil in spring is almost certain to dry it out, especially in a windswept situation. The vegetable seed-bed should be prepared in the fall and left firm during the spring a mere scratching with rake or light harrow being given to break the surface crust.

Avoid at any time having a lot of coarse manure in the land. For the garden it is best to use partially-rotted manure, applied frequently in limited quantities and well mixed with the soil. In a dry climate the immediate effect of manure may be detrimental,

but that applied this summer may be of benefit next year or the year following. Keep building the garden up in this way but avoid turning under too much manure in any one year, especially in late summer or autumn.

The heaviest dressing may be applied in the summer-fallow year. Spring application is rarely advisable on land to be cropped to vegetables that same season.

Although sowing in the open will often give good results, it is much safer to start cabbage and cauliflower, as well as tomatoes and celery, in hot beds. Even beets may be thus started and transplanted.

Experiments at Paveridge have shown that there is no uniformly best date for sowing any vegetable. The safest plan is to sow a portion of each class of seed in late April and early May, reserving about two-thirds for a second and a third sowing. If space be limited, the first sowing may be made on the left-hand side of a string stretched between firmly fixed label stakes, a second sowing on the right-hand side, and a third, if needed, where the first one had been originally made. One or the other is almost certain to succeed, but there is no knowing in advance which will be best, although the odds favor early sowing of parsnips. The earliest pods of peas and ears of corn are likely to be garnered from the first or second sowing, but the later plots may grow more luxuriantly.

In sowing, disturb the soil as little as possible. A garden drill is a real help. Lacking this, sow, cover, and gently press the seed, or promptly as possible after opening the furrow.

THE CHRONICLE, - Champion.

**Local and General**

**Found**—A pair of lady's suede gloves. Owner call at Chronicle office.

Mrs. T. Gill's residence has been repaired and painted during the week, E. Bridgett being in charge.

Chester Hyndman, recently completed kalsomining and painting the interior of his barber shop.

Dr. McFutry, dentist, will be here in future on Tuesday instead of Monday. Note change in advt. elsewhere in this issue.

Work on the interior of the Saway hotel has been completed and the result of kalsomining and painting is highly satisfactory.

Evidently some of the cows have not yet acquired the knowledge that they are not supposed to be running at large.

Eddy Kilon, who was with the Champion ball team for the earlier part of the season last year, will play in Calgary this summer.

Exceeding records for several years the total homestead entries and soldier grants filed on at the federal land office at Edmonton for April was 177.

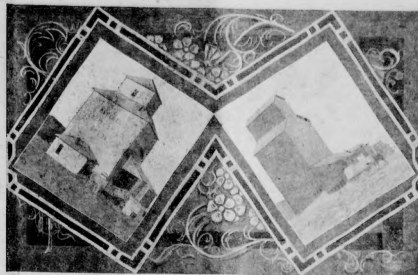

R. Tyler's implement office has been ornamented with white paint and is now a shining example to other beneficiaries very lucrative business.

The Royallite No. 4 well in the Turner Valley field south of Calgary is producing more oil now than all the wells in the province of Ontario together, according to an authoritative statement. The total Ontario production for 1925 was 143,000 barrels, which was less than the total production from the Royallite well.

More than 1,300 settlers registered at the immigration hall at Edmonton during the month of April, the largest number to arrive in this part of the province in any one month since 1914.

**Liberal Convention****Wed., May 19th**

A convention for the purpose of nominating a Liberal candidate for the provincial constituency of Little Bow will be held in Campbell's hall, Champion, on Wednesday, May 19th, commencing at 2:30 p. m. J. T. Shaw, leader of the Liberal party in Alberta, will be present and will address the meeting. This convention is an open one and a general invitation is extended to all to attend. Naturally everyone will want to hear the newly elected leader of the Liberals, as Mr. Shaw's reputation as a clear, incisive speaker has already preceded his appearance in Little Bow. Don't forget the date—May 19th. In the evening at 8 p. m. Mr. Shaw will speak in the Oddfellow's hall, Vulcan.

## **WORLD HAPPENINGS BRIEFLY TOLD**

During last year 1,352 diamond motorists were deprived of their licenses in the State of New Jersey.

St. Silvan, Brancaster, British Columbia, says he plans a landing stage at Galway for trans-Atlantic aeroplanes.

New Zealand's export of apples last year reached the record total of 600,000 cases, with ample left for home market.

Coffins containing two mummified horses, the first ever discovered in Egypt, have been found in the pyramids of Sakharu, south of Cairo.

Geological surveys in British Columbia have cost the federal treasury \$1,171,410 since 1871. In the last four fiscal years it has averaged from \$50,000 to \$100,000.

Aerial traffic between the United States and Canada may soon be directed through "air gates" designated by mutual agreement of the two governments.

The possibility of the creation of a Hebrew rite in the Roman Catholic church which would mean recognition of the Zionist nation is declared by the Giornale d'Italia to be under discussion in ecclesiastical circles.

Butter importers have been notified by the customs department that they must pay six cents a pound dump duty on all butter they have imported to Canada, from Australia, since January 1 of this year.

Up to the end of March last 6,380 persons had been accepted in Great Britain for migration to Canada and 2,654 had actually sailed for the Dominion under the Canadian assisted passage scheme.

The owners of black opals are extremely lucky people at present, contrary to the accepted superstition for the value of these gems is rising as they become rarer and more scarce. The mines in Australia which produce them are giving out and no new sources have been discovered.

## **No Written Examinations**

Pupils in B.C. School To Be Promoted On Basis Of Year's Work

Pupils attending British Columbia public schools will be promoted to the high schools this summer under entirely new regulations, it was announced at the department of education. Under a system to be inaugurated by Hon. J. D. Macdonald, minister of education, the practice of promoting pupils on the basis of their work during the entire school year instead of depending upon written examinations will be extended greatly in its scope. At the same time, however, Dr. Macdonald is inaugurating new regulations designed to safeguard these promotions and prevent the advancement of unworthy pupils.

## **TIPPITY-WITCH IRENE**

ISN'T THE RADIO A WONDERFUL INVENTION, MISS IRENE?

CONSIDER THE MARVEL OF HEARING MUSIC, VOICES FROM LANDS THOUSANDS OF MILES AWAY! MESSAGES HURLED THROUGH SPACE! ITS MIRACULOUS! ITS UNCANNY!

AH! BUT IT SURELY HAS MADE ME THINK!

YES! IT IS WONDERFUL WHAT SCIENCE CAN DO!!

By COLLEEN MOORE

## **Gopher Poisons**

By V. W. Jackson, Professor of Biology, Manitoba Agricultural College.

All gopher poisons contain strychnine, they differ only in amount and mixture. The government standard is 12 grains of strychnine sulphate per fluid ounce or 2.5 per cent, or about 42 grains of strychnine to a gallon of water to treat as much grain as will soak it up. Strychnine has two forms—the natural alkaloid and the sulphate crystals, which are more soluble but less poisonous, so that it takes 6 ounces of the alkaloid—10 the sulphate is commonly used because cheaper and more soluble. But gopher poison must be made attractive and alluring with sweetness and aroma.

The North Dakota mixture contains glycerine, saccharine, maulasses and baking soda. The Canada mixture depends upon vinegar for its flavor and aroma. Other mixtures use alcohol oil for flavor and aroma—all good in their way, all effective in proportion to the strychnine present.

The North Dakota mixture is the most popular homemade one, and made in the following quarter-section, section, or municipality.

For 1/4 Section Section-Municipal, 20 qu. oats 3 bus. or 300 bus. 100 quarts.

1 oz. strychnine 1/2 oz. 22 lbs. 1 oz. baking soda 5 ozs. 32 lbs. 1 oz. starch 5 ozs. 32 lbs. 1/2 pt. molasses 1 1/2 pts. 16 pd. 1/2 cup. glycerine 3/4 cup. 22 lbs. 1/2 oz. saccharine 1/2 oz. 62 1/2 lbs. Labor 20 mins. 30 lbs. 64 lbs.

Probably cost \$2 for 1,200 gopher holes or average 100 holes per acre. Approximately \$4.00 for 6,000 gopher holes, average section. 600,000 gopher holes, 100 sections (half municipality), section.

Make a pint of hot starch paste and stir slowly into the strychnine and soda powder and stir so it will not boil over. Then add the molasses, glycerine and saccharine and stir well. Then pour the warm mixture over 20 quarts of clean oats. Cost about 2c per 10 gopher holes and saves bushes of grain and a bumper field, if done in time (April and May).

## **Lord Grey's Sight Restored**

Threatened Danger of Total Blindness Has Been Averted

His innumerable admirers of every political color will rejoice to hear that the threatened danger of total blindness which drove Lord Grey of Yalden out of public life some years ago is averted. By carefully carrying out the orders of his oculist, his failing sight has been saved. No longer does this booklover have to depend on the services of a reader—he can read for himself. Indeed, it is no secret that he is now revising the proof of a book which he has finished and which will be published shortly—London Mail.

## **Each Mark Has Meaning**

Every mark on a twig has a meaning in the life of a tree, says Nature Magazine. The tiny dots scattered here-and-there on the twigs are the breathing pores. Day and night, winter and summer, the tree breathes in oxygen and gives off carbon dioxide. The great work of spring and summer confers much additional breathing space which the leaves furnish.

## **New Heat Resisting Metal**

Tantalum, a new metal for use in electrical work where great resistance to heat and acids is required, is said to last 1,600 times longer than platinum and is one-twentieth as cheap.

Don't delude yourself with the idea that there is a good-looking woman in the world who doesn't know it.

As we understand it, a dangerous reduction in the tax levy is one suggested by the minority.

One sign of greatness is to have a signature nobody can read.

## **"DIAMOND DYES"**

## **COLOR THINGS NEW**

Just Dip to Tint or Boil to Dye

Everything! Buy Diamond Dyes—no other kind—and all your drapery whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

Each 15-cent package contains dyes to color a simple any woman can tint soft, delicate shades of dye rich, permanent colors in lingerie, silks, stockings, waists, dresses, coats, ribbons, sweaters, draperies, coverings, hangings.

Legislation to regulate rates charged radio stations for broadcasting copyright music was urged at a session of the House and Senate patent committees, Washington. Some stations pay as high as \$25,000 a year to the Composers' Association.

Effective May 1, C.N.W.R., the Winnipeg broadcasting station of the Canadian National Railways, will operate on a summer schedule starting at 8:30 with the bedtime story, followed by market reports at 8:50 and the studio programs at 9 p.m. This will also apply to C.N.W.R. stations.

Truism a radio set requires experience and familiarity with a set. Many purchasers are discouraged when they get their receivers and have difficulty receiving stations and listening in programmes clearly. It is an art to get the utmost efficiency out of a set with the least amount of power.

The question about the merits of broadcasting music made for dances purposes tins the consensus—agreeing that the radio has been, and is being, appreciated when listened to, rather than stepped to. Something in the microphone transmission mutes the tempo and distorts the perfect clarity of rhythm. Sometimes it is static, but on ideal reception evenings it is pure by a matter of technical deficiency.

"Ingredients comprising a radio set have among them all travelled 50,000 miles between their places of origin and the factory where they are finally combined," says the book. "No standard receiving set are two thousand different parts, omitting the tubes. Each of the seven tubes has thirty-two parts. Some of these materials are domestic, many are foreign. No nation, no continent, supplies them all."

Radio owners who become uneasy during thunderstorms have little reason to fear, because lightning has not established any special fondness for an antenna. So advise engineers of the Underwriters' Laboratories, where daily war is waged against hazard through the testing of hundreds of devices to determine whether they are safe to use. All the tests, many of which appear stringent, are made with the knowledge that when amateurs experiment anything may happen."

Ontario Has World's Gold Deposits A mining expert says that within two years Ontario will be the great gold producing area in the world, outdistancing the Rand, although the latter leads at present owing to cheaper labor. Ontario has the gold deposits of the world in its back garden with an annual production at present of nearly \$30,000,000.

Was Oldest Mason in West Andrew E. Rea, believed to have been the oldest Mason in Western Canada, is dead. He was 90 years old and had lived in the district for 40 years. Mr. Rea who was born in Kingston, Ont., was a Master Mason for 49 years.

"Come and dine with me tomorrow evening old man." "Afraid I can't, I'm going to see Hamlet."

"Never mind, bring him along too."

On the radio, the only thing that is more wonderful than the radio itself, is the fact that it is so simple.

## **ON THE AIR**

What Is Doing In the World of Radio

It is said that the radio industry is still in its infancy. Perhaps that is why it keeps so many people up late at night.

London soon will have a theatre in which plays will be staged for broadcasting and not for audiences present in person. A test was made recently in Covent Garden Opera House where an opera was performed and broadcast without stage seating or curtains.

The Bible service bureau has been incorporated at Columbus, Ohio to give to the world daily a message from the Word of God by radio. The service has been offered free to 263 broadcasting stations in the United States and 32 stations in Canada.

Legislation to regulate rates charged radio stations for broadcasting copyright music was urged at a session of the House and Senate patent committees, Washington. Some stations pay as high as \$25,000 a year to the Composers' Association.

Effective May 1, C.N.W.R., the Winnipeg broadcasting station of the Canadian National Railways, will operate on a summer schedule starting at 8:30 with the bedtime story, followed by market reports at 8:50 and the studio programs at 9 p.m. This will also apply to C.N.W.R. stations.

Truism a radio set requires experience and familiarity with a set. Many purchasers are discouraged when they get their receivers and have difficulty receiving stations and listening in programmes clearly. It is an art to get the utmost efficiency out of a set with the least amount of power.

The question about the merits of broadcasting music made for dances purposes tins the consensus—agreeing that the radio has been, and is being, appreciated when listened to, rather than stepped to. Something in the microphone transmission mutes the tempo and distorts the perfect clarity of rhythm. Sometimes it is static, but on ideal reception evenings it is pure by a matter of technical deficiency.

"Ingredients comprising a radio set have among them all travelled 50,000 miles between their places of origin and the factory where they are finally combined," says the book. "No standard receiving set are two thousand different parts, omitting the tubes. Each of the seven tubes has thirty-two parts. Some of these materials are domestic, many are foreign. No nation, no continent, supplies them all."

Radio owners who become uneasy during thunderstorms have little reason to fear, because lightning has not established any special fondness for an antenna. So advise engineers of the Underwriters' Laboratories, where daily war is waged against hazard through the testing of hundreds of devices to determine whether they are safe to use. All the tests, many of which appear stringent, are made with the knowledge that when amateurs experiment anything may happen."

Ontario Has World's Gold Deposits A mining expert says that within two years Ontario will be the great gold producing area in the world, outdistancing the Rand, although the latter leads at present owing to cheaper labor. Ontario has the gold deposits of the world in its back garden with an annual production at present of nearly \$30,000,000.

Was Oldest Mason in West Andrew E. Rea, believed to have been the oldest Mason in Western Canada, is dead. He was 90 years old and had lived in the district for 40 years. Mr. Rea who was born in Kingston, Ont., was a Master Mason for 49 years.

"Come and dine with me tomorrow evening old man." "Afraid I can't, I'm going to see Hamlet."

"Never mind, bring him along too."

## **SUNDAY SCHOOL LESSON**

MAY 16

## **ABRAM AND THE STRANGERS**

Genesis 18:1-19:1

Devotional Reading: Psalm 133.

## **Explanations and Comments**

Abraham Entertains Angels Unaware, verses 1-8.—"And Jehovah appeared unto Abraham as he sat at his tent entrance at noon in Hebron; the first verse says, and the second speaks of 'three men' appearing suddenly on the scene. Because of verses twenty-two and thirty-two, we must understand that the story includes among the three men, Jehovah himself. 'There are passages in the Bible in which manifestations of God are described which seem to imply that he was confined within the limitations of space, or that the human form really was proper to him. It is said to have walked in the garden in the cool of the day, to have come down to see the town which men had built; to have been one of the men who appeared to Abraham, and to have eaten that which was set before him. Under these passages there lies not only a vivid conception of his personality, but a vivid conception of a profound and more strictly redemptive truth, namely, that he reveals himself and enters into the closest friendship with men" (Dr. A. B. Davidson).

## **Life on Mars Quite Probable**

Prof. C. A. Chant, of the University of Toronto, told the convention of the Ontario Educational Association there that the existence of life on the planet Mars was more than a possibility, according to conclusions drawn from observations made in 1921 when the planet approached close to the earth. Prof. Chant described the work of the astronomers who observed Mars during that period.

## **Clock Does Trick**

The town clock of West Chester, Pa., every day at noon casts a baseball from the top of the tower and the person who finds it receives 10 cents from the merchant whose name it carries. A reservoir carries enough balls for three weeks.

## **Her Heart Palpitated She Had Fainting Spells**

Mrs. J. Wilson, Port George, N.S., writes—"I suffered from palpitation of the heart and fainting spells, and at times, I could not be left alone I was so nervous. My trouble was caused from overwork and worry, having been left alone with a large family. I had tried everything, without any relief, but I know, today, that I would have been a nervous wreck but for your wonderful

## TRADE SUFFERS IN BRITISH ISLES THROUGH STRIKE

London.—The British Gazette, the government's newspaper, contains an editorial government communique, declaring that trade and industry throughout the entire country is suffering grievous injury through the general strike.

Equally throughout the country vital services, food, milk, light and power, are being successfully maintained by the government and every obstacle is being progressively surmounted, "although," it adds, "tremendous and possibly prolonged efforts will be required from all loyal citizens."

"There is no doubt whatever of the result," the communique continues. "No serious disorders have occurred; abundant food transport is available; but picketing is intensifying with the strike. The special police are being increased steadily, and protection on a growing and wider scale will be afforded daily."

"The navy has rendered prompt and effective civil assistance at several points, but no use or display of military force has been required and the public is advised to disregard alarmist rumors such as the post office savings bank has suspended payment, and 'mutinies have occurred among His Majesty's forces.' Such reports are wholly untrue, their circulation is a criminal offence."

### More Compensation

Rural Postmasters May Soon Receive Higher Pay

Ottawa.—Answering a question in the House of Commons respecting compensation for rural postmasters after the introduction of the postal stamp on July 1, Hon. Ernest A. Macdonald, minister of justice, said that it was realized that the adoption of the two-cent letter rate on July 1 will result in a substantial decrease in the revenue of rural post offices. Rural postmasters are paid on a commission basis, there would be a corresponding decrease in their salaries.

"The question of an upward revision of the rates of compensation of rural postmasters will receive sympathetic consideration by those who are charged with the duty of fixing the rates," he added.

### Vessels Liable To Customs

Those Delivering Canadian Winter Storage Cargoes At U. S. Ports Must Comply With Tariff

Ottawa.—There is apparently some misapprehension, it was stated here as to the position of the United States in delivering Canadian winter storage cargoes at United States ports. These vessels are liable to a 25 per cent. duty not by virtue of an order-in-council, but under the customs tariff which can only be amended by act of parliament. Under a provision of the Canada Shipping Act, however, the government may, by order-in-council, permit foreign vessels loaded with winter storage grain to discharge at a Canadian port in the spring. Such an order has been passed for several years.

### Embargo Lifted

London.—After holding up the appearance of the British Worker, the labor paper issued in answer to the government's British Gazette, police permitted its appearance from the office of the Daily Herald, the regular labor newspaper. The embargo was lifted after a sample copy had been inspected.

### Saklatvala Is Jailed

London.—Shamsher Saklatvala, the late Communist member of parliament, was sentenced to two months' imprisonment here for making obscene speeches. He was given the alternative of providing sureties to keep the peace, but chose the prison sentence.

### Beat Warden To Death

Jeffrey, Ill.—Deputy Warden Klein, of the Stateville Penitentiary, was beaten to death by seven convicts in a prison break here, the first escape from the great steel modern prison. The convicts escaped in an automobile after having killed King in a cell.

It is just fifty years since John D. Rockefeller combined all his companies into one, and called it the Standard Oil Company.

A water power plant on White River, Indiana, is controlled automatically by steel switches, and requires no attendants.

### Is Standing Firm

Premier Baldwin of Great Britain who enjoys the reputation to keep steady in the present crisis.

### Slaves In Burma Freed By Britain

Deputy Commissioner Bernard Keane, Allahabad, British India.—After several months spent in the wilds of Burma, standing out slave trading and negotiating with the Nagas for the abolition of human sacrifice, Deputy Commissioner J. T. O. Bernard of the Burma frontier service, has arrived in Calcutta.

Barnard told a most interesting story of his activities. The number of slaves set free at a cost of 25,000 rupees was 3,445, which did not come up to the exaggerated expectations which had been entertained. There were no limitations, however, to the gratitude and unimagined joy of the Kachins, who were emancipated across the act of the "great white chief," Sir Harcourt Butler, governor of Burma.

In an area of 2,000 square miles, 35,000 people were taken after human sacrifice. Evidence was found of this practice and also of the care taken to prepare the victims. Usually he is placed in a kind of stock pen and watered like an animal for two months before being sacrificed.

### Illicit Gold Traffic Alarming Mine Owners

Mines In South Africa Looted of Large Amounts

Capetown.—Some remarkable revelations regarding the extent of illicit gold traffic have been made in South Africa recently. The conspiracy is centered in the heart of the gold mining industry in Johannesburg, but its ramifications extend to England and India. It is estimated that some £250,000 worth of gold is dealt with illicitly each year. The gold is, in the first place, fished from the many mines that lie alongside the Witwatersrand. It is not an easy matter to steal gold from a gold mine. Like the diamond industry, there is a constant supervision. Yet gold is shown by the number of convictions in the Johannesburg courts each year.

The mining authorities, aware of these constant leakages of gold, are puzzled to account for them.

### Table Came From England

Berlin.—The English table upon which Emperor William signed the mobilization order, Aug. 3, 1914, for the commencement of the world war, is now on display to visitors in the imperial castle here. The table, which came from England many years before as a gift, was made out of boards from Admiral Nelson's flagship.

### Dirigible Leaves For Spitzbergen

Leipzig, Prussia.—The Amundsen-Elsworth North Pole dirigible Norge, left Tromsø on another stage of its voyage to Spitzbergen. Daily weather conditions from Spitzbergen, sent by Captain Lind Amundsen, leader of the expedition, appear to be favorable for the flight to King's Bay.

### Orders American's Release

Rome.—An investigating magistrate ordered the immediate release of John Adams Abbott, member of a prominent Boston family who has been held in jail here for the last week.

The charge that he had insulted Premier Mussolini was shown to be unfounded.

### Plans Super-Dirigible

Franklin, Conn.—Thames B. Slat, noted inventor of fast dirigibles for aircraft, announced here that he had signed a contract with the government to construct a super-dirigible capable of making a non-stop flight to the North Pole and return in seven days.

## Sane Government Or Anarchy

Daily Mail Says British People Will Not Submit to Odious Tyranny

London.—The Daily Mail says there are now two governments in Great Britain. One the low government representing 40,000,000 persons, and the other "an unconstitutional, revolutionary government representing 3,600,000 'red' units."

The paper declares that one of these governments must go. "We are not going to see J. H. Thomas and Ramsay MacDonald imitating the work of Lenin and Trotsky here," the Daily Mail says of the Labor leaders. "Nor will the British people—who are entirely different from the pathetic, subservient masses of Russia—submit to such an odious tyranny."

## Monument For Great Explorer

Douglas Fir Trees Planted Near Captain Vancouver's Grave in England

London.—In the old parish church of Petersham, Surrey, the Hon. A. P. Phillips, agent-general for British Columbia, assisted by J. S. Corbett, secretary of the Empire Forestry Association, has planted near Captain Vancouver's grave a number of young Douglas fir trees grown in Kew Gardens from seeds sent by the natives of British Columbia, as a lasting memorial to the great explorer.

## NO PEACE UNTIL STRIKE ORDER IS WITHDRAWN

London.—"The general strike is a challenge to parliament and is the road to anarchy and ruin," the British prime minister, Stanley Baldwin, thus characterized the vast Labor movement in support of the miners' strike, in a message printed by the official government paper, The British Gazette.

He calls upon all good citizens to stand behind the government "to preserve the liberty and privileges of the people of the British Isles."

In the House of Commons the prime minister made the unequivocal declaration that the strike order would be withdrawn before the government would resume negotiations for industrial peace.

At the same session of the commons, Sir William Johnson-Hicks, the home secretary, intimated that troops would be employed, if necessary, to maintain services of vital importance. In setting forth the situation to the public, the government's spokesman at the Admiralty declared that the nation was meeting the crisis quietly and calmly, with food and fuel supplies guaranteed for many weeks. An official of the Trades Union Congress at Euston Square, Labor headquarters, announced that the railway tie-up was the most complete in the history of Great Britain, and that the striking men and their women-folk were standing solidly together for the cause of Labor.

The Sky Line of New York

As seen from the deck of the Canadian Pacific flag ship Empress of Scotland after she had docked there April 10, completing an 129-day voyage around the world, commencing December 1. Many unique spectacles were witnessed by passengers including an eclipse of the sun at Bonaville which lasted over a million miles into the sacred waters of the Ganges in the hope of avoiding the destruction of the world; and a human sacrifice when a Hindu priest committed suicide on the altar of the goddess Kali in her temple at Calcutta. The Sultan of Johore, a Malay Peninsula State, introduced some of the lady passengers to his harem. Seven honeymooners took the trip and their example was so contagious that 27 couples had become engaged to be married at the termination of the world cruise.

## H. B. RAILROAD QUESTION COMES BEFORE SENATE

Ottawa.—When the Intercolonial bill of one twelfth was presented in the senate by Hon. Raul Dandurand, Senator W. H. Ross, opposition leader, drew attention to the item of \$25,000,000 for the Hudson's Bay Railway in the estimate. He said the senate had been informed what use was to be made of this money. Whether the Hudson's Bay Railway was to be part of the Canadian National Railway or an independent system operated by the government. He would also like to know where this \$25,000,000 was to be expended and how.

Senator Dandurand said there were 80 miles of road to be completed. The Hudson's Bay Railway was not, at present, a part of the Canadian National system, but was administered and controlled by the railways department. The minister of railways had asked the Canadian National system to supervise the completion of the work. The Intercolonial route would be used for maintenance and repairs on that portion of the road on which rails had been laid. In voting money for the Hudson's Bay Railway the government was carrying out the policy of all governments of recent years. He said the bill would be presented with dignity until completed.

## Requisition Cafe For Amusement Of Soldiers

Magnificent Restaurant Now Used By British Army On Rhine

London.—The Waldorf at Wiesbaden, one of the most luxurious restaurants in Germany, has been taken over by the Navy, Army and Air Force Institute for the benefit of the army of occupation on the Rhine.

A magnificent restaurant on the ground floor, where wealthy Germans once expensed lavishly, is now used only by British soldiers and their wives, and a large theatre on the first floor has been converted into a moving picture theatre and lecture hall.

"We wanted to take over this building because the facilities for the amusement of the troops in Wiesbaden were limited," said K. H. Clery, assistant general manager of the N.A.A.F.I. "There was great delay on account of financial reasons, but now the place has been requisitioned by the war department."

"There has been considerable opposition in Germany, however, and many newspapers have declared that we have violated the spirit of Locarno."

### Alberta Air Patrol

Ottawa.—C. C. Coote, Progressive, M.C., asked the minister of the interior in the house if the air force of the province of Alberta was increased this year. Hon. Charles Stewart replied that arrangements would be made and the service carried on would be continued this year.

## Figures In British Strike

A. J. Cook, General Secretary of the Miners' Union, who has taken a prominent part in the strike movement.

## Suggests National Wide Celebration

Senate Urges Fitting Recognition of Sixtieth Anniversary of Confederation

Ottawa.—The senate adopted a resolution that "it is expedient that preparations be made for the celebration of the sixtieth anniversary of the Confederation of the Provinces of Canada."

Senator Lewis, who proposed the resolution, believed the celebration should be made nation-wide, and that so far as the government was concerned it was only implementing the wishes of the members of Parliament. J. E. Armstrong, Conservative leader, thought that advance should be taken of the strike and the necessity of consideration to bring before our people the matter of our national growth and achievement.

## Death Of Forestry Expert

A. H. Mitchell Was Well Known For Work Done In Western Canada

Edmonton.—A special in the Herald from Macleod says that A. H. Mitchell, a well known forestry expert, died at Edmonton, B.C., following three months' illness from kidney trouble. Mitchell, who came to Macleod from Scotland in 1888, was widely known over the prairies, having travelled with the Dominion forestry branch in planning a road for a number of years. He was a true enthusiast. His father was chief forester to Lord Rosbery.

## BRITISH CABINET URGED TO MAKE CONCESSIONS

London.—In the House of Commons, for the first time, Lloyd George urged the Laborites in disposing the precipitancy shown in breaking off negotiations, which he characterized as a grave error. Ramsay MacDonald begged the cabinet not to remain adamant, but to make some concession in order to get the government and the Trades Union Congress around the conference table.

For the first time the debate brought out how slight a touch was needed to sever the thread of negotiations and send the sword of a general strike crashing on the heads of the British people. It was the "great act" of a few printers in the Daily Mail plant, who, setting without authority the "red" representatives, did not agree with an editorial and stopped the machinery of the paper, preventing its publication.

Ramsay MacDonald, in a further plea for bringing the government and the Trades Union Committee together, said that after reviving the government's final communication the Trades Union Congress and miners sent a committee from their room to the prime minister's room to discuss the situation. When the committee arrived, Mr. MacDonald declared dramatically, they found the door locked and the room in darkness.

In consequence of this disclosure, members of the House of Commons repeatedly demanded to know the terms of the formula mentioned, and whether the miners had accepted it since the breakdown, but information on this point was not forthcoming. The Laborite, James Maxton, Glasgow, stated that the strike had been precipitated because the directors of a great newspaper proprietor should be injured. It was dangerous that the whole nation's services should be crippled and that millions should suffer because of this.

## NATIONAL FUEL POLICY IS NEEDED FOR DOMINION

Ottawa.—Premier King moved in the House of Commons that the special committee recently appointed to investigate the present sources of supply of anthracite and bituminous coal and other matters in relation thereto be composed of the following members: Messrs. Armstrong, East Lambton; Bury, Campbell, Fearn, Fleming, Gaudin (Hon. Member), Gresham, Howden, Laperle, McLeod (McNeil), Nicholson and Rogers.

The motion carried without division. T. L. Church, Conservative, Toronto, Northwest, stated he could not see any legitimate reason for the appointment of this committee. The responsible for the entire situation was the question was raised by the government.

There was a probability of a strike in the coal fields of the United States; and immediate action and an announcement of the government's policy should be made. He believed in a national fuel policy for Canada.

Hon. Charles Stewart, minister of the interior, felt that the committee might bring to light some cheaper method of transportation of coal. It might be possible to transport Alberta coal to the west of the lake from railways to ships. The committee's operations would have nothing to do with the actual supply.

Premier King rose to state briefly that so far as the government was concerned it was only implementing the wishes of the members of Parliament. J. E. Armstrong, Conservative leader, thought that advance should be taken of the strike and the necessity of consideration to bring before our people the matter of our national growth and achievement.

Hon. B. B. Bennett suggested the necessity of consideration to bring before our people the matter of our national growth and achievement. A previous committee had done considerable work in the matter, and the ground is covered should not be gone over again.

## Plan Most Northerly Mounted Police Post

Efforts Being Made To Place One Within Ten Degrees North

Toronto.—A determined effort is to be made to land three Royal Canadian Mounted Police posts on the Back Peninsula, which is latitude 79, only 10 degrees from the North Pole, according to George P. Macleod, officer in charge of Arctic expedition this year. If successful this will be the most northerly R.C.M.P. post, and will be the farthest north which Canada has ever extended for administrative purposes.

If Back Peninsula can be reached these three mounted police posts will represent all branches of the Dominion Government. They will open and conduct a post office, act as mining revisitors. If necessary, will act as game warden and will take applications for naturalization if any are made.

## Budget To Stand

No Substantial Changes Are Contemplated By The Government

Ottawa.—No substantial changes will be made in the budget. Hon. J. A. Robb as informed Mr. Hon. Arthur Meighen in the House of Commons in answer to persistent questions on the subject.

The leader of the opposition said he had reports of a character which he could not ignore that changes in the budget were contemplated. The minister of finance stated that if representatives actually struck were made in committee stage some slight modifications might be acceptable and no substantial changes were under contemplation.

### Regina C.P.R. Hotel Approved

Montreal.—The city of Regina is to have a new \$125,000 hotel. At the 45th annual meeting of Canadian Pacific Railway shareholders here, approval was given to an agreement between the Regina civic authorities and the company for the construction of the structure.

### Ship Canadian Galle

Toronto.—Two boats are leaving Canada for England with regularity, unaffected by the British general strike and the Canadian export trade in the coal fields of the United States is not expected to be affected. In the opinion of H. P. Kennedy, large shipper of livestock.

### Yukon Free Of Ice

Dawson, Y.T.—The ice has moved out of the Yukon River at Dawson and no more are expected from snow-lakeage shortly.

"is good tea"

Perhaps you use good tea. We think Red Rose extra good.

## The British Strike

The outstanding event of the week in which the article is written is the great strike in Great Britain affecting nearly five million workers and crippling all the public services of the country. This great national strike also serves to once again demonstrate how closely the interests and welfare of one country are bound up with other countries. The day the strike went into effect the price of wheat in Canada and the United States made a considerable drop, while values of many stocks fell on the New York and other markets. No longer does one nation live unto itself alone, and even its purely domestic troubles have an international and world effect.

The unsettled condition of the mining industry in Great Britain lies at the bottom of the strike, just as it has been the cause of more or less trouble for many years past, and until a reasonable and satisfactory solution of the coal mining problem has been found it would appear that trouble must be expected. In the case of the present strike, precipitated by the miners' refusal to accept a reduction in wages and a shortening in the hours of labor, which the mine owners insist is necessary if the industry itself is to survive, railway employees, printers, dock and transport workers, the building trades, and iron and steel workers, and others organized under the Trades Union Congress, ceased work in sympathy with the miners' demand for higher wages and shorter hours. It is difficult for the people in this country to fully grasp and understand the underlying causes of the discontent and financial difficulties existing in the British coal mining industry. Undoubtedly the war has had something to do with it, because there is not the same world-wide demand for British coal as existed prior to 1914, and furthermore, the depression in British industry owing to lack of orders from foreign markets following the war has likewise had its effect.

Competent observers from other countries find another cause for the trouble—a basic one. They insist that the whole system of coal mining in the British Isles requires to be modernized, and that until this is done the business cannot be carried on in the manner of the modern coal-mining industry. Machinery and working conditions cannot be provided the miners. To effect the changes necessary will call for the expenditure of enormous capital sums, and, for a time at least, a decrease in the number of men when employment can be found.

In other words, it is held that the present method of pick and shovel mining must be replaced by the utilization of machinery in the mines for purposes of cutting the coal. This would mean fewer men employed, but as large or larger output of coal at a considerably less cost per ton, thereby assisting all British industry and enabling British coal to again compete successfully in the market of the world. If these experts are right, then it would appear that the British coal industry and British coal must pass through the same experience as did the cotton industry following the advent of machinery, which caused a terrible upheaval at the time and much distress, but ultimately gave that industry its great supremacy.

Evidence is not lacking that the same process of modernization is necessary in other lines of British activity, the building trades for example. A group of United States experts connected with the real estate business recently visited London, and they report that the building industry must pass through the same experience as did the cotton industry following the advent of machinery, which caused a terrible upheaval at the time and much distress, but ultimately gave that industry its great supremacy.

A huge modern steel structure is being erected in London on the site of Devonshire House in Regent Street. The building of the steel skeleton was being carried on by a group of men turning handles on an old-fashioned drum, with the result that the beams moved upwards slowly by inches. On this side of the water a donkey engine would do the hoisting in a fraction of the time. On the site of another structure close by, pick and shovel men must excavate for a foundation. In Canada and the United States a steam shovel would be on the job, and do it in short order and at much less cost.

British workmen and their Union leaders have yet apparently to learn the lesson that the introduction of modern machinery is essential to their own progress and welfare. Lowered costs of output and production is necessary if British industry is to compete with the world, and such a reduction in costs would enormously increase the volume of production, thus providing for less employment because of the increased output. The result would be better wages and shorter hours because of the greater demand created through lowered costs and greater expenditure in the completion of work.

## British Would Aid U. S.

The British Government has a plan for assisting the United States to tighten its check over run running. The plan does not go as far as a new treaty, but according to official circles will take the form of permission for United States revenue cutters to visit the Bahamas and co-operate with British ships in carrying out searches for contraband liquor.

There was not one Turkish woman among the industrial workers of Constantinople four years ago, but now there are 20,000.

An Oil that is Famous—Though Canada was not the birthplace of Dr. Williams' Pink Pills, it is the land of that famous component. From here its good name was spread to Canada and South America, the West Indies, Australia and New Zealand. That is far enough to attest to its excellence, for in all these countries it is on sale and in demand.

You aren't old until you have forgotten how good bread and butter tasted. The brown sugar loaf and butter.

There are known to be 20,000 vases and lamps in Japan.

## Pilot Makes New Record

Flies Heavy Plane London to Paris in Ninety Minutes

Some idea of the astonishing progress in air travel can be had from the record recently made by Captain MacIntosh, an Imperial Airways pilot. The officer flew a big five-engine, three-impeller Handley-Page air liner from London to Paris in 90 minutes! The plane carried a full load of passengers and goods, and weighed six tons.

The average speed of the flight of 230 miles was 154 miles an hour, a new record for a big passenger plane of this size.

The actual speed record between London and Paris is held by a four-seater Napier D. H. express plane, which made the flight in 87 minutes; which means that Captain MacIntosh took with his scant passenger load, lacked only three minutes of the record set by the light "speed" machine.

Sore Chest Relieved**

A Nova Scotia Tale How She Overcame Her Troubles With

## NERVINE

"I couldn't Nervine the best rest for a cold, sore throat or tight chest across the chest," writes Mrs. Lucy Mother from Windsor, N.S., "and after three years I have been without Nervine. I had a cold on my chest, my lungs were sore, I couldn't break up. I rubbed on Nervine three times a day, and my chest was a great deal better, and my throat was completely relieved." It became Nervine the most reliable remedy for me to relieve congestion, that it is used by the general public for the relief of a hundred minor ills. Get a 50c bottle to-day.

## Has Patented Atom Engine

Idea May Develop into Most Dramatic Achievement of Century

A Dutchman has recently received a patent for running an engine on air or obtained from the atmosphere. He discovered that if mineral sand containing titanium are heated to a temperature of 1,700 degrees centigrade the atoms disintegrate, and an enormous amount of heat is generated. The sand is heated in a small electric furnace, and the heat caused by the sudden breaking-up of the atoms is forced by a pump through tubes that heat the water in a boiler, and supply the power to drive a motor or turbine. The patent has passed through the patent office almost unopposed, but it is actually the first step towards the realization of the power from the atom which all the world is waiting for. It may easily develop into the most dramatic achievement of the century.

## Refuses To Hear Fortune

Prince Knows What Has Been Predicted For Him

There is a very remarkable Irish lady in London now, who tells fortune. The lady is called Mrs. Williams, and she is a friend of the Prince of Wales. She begged him to consult her as to his future, and she told him that he would be married to a girl named Mrs. Williams. He consulted this palmer, and that time and again. They tell me always one of two things. That I'm to be married to a girl named Mrs. Williams. I won't have my fortune told again.—London Mail.

Worms cause fretfulness and rob the infant of sleep, the great nourishment. Mother's Own Worm Expeller will clear the stomach and intestine and restore healthfulness.

## Farm Lands In Demand

A Revival of Buying of Farm Lands Has Set In

With farm land values just at the upturn and conditions improving, this season has brought a revival of buying in farm lands equal to the best of the year. Mr. F. H. Harmon, president of the Winnipeg Real Estate Exchange, recently.

"One company alone has been averaging sales of 20,000 acres of farm lands a month since last October," Mr. Harmon said. "In each case the land, mostly wild land for pasturage and stock raising purposes, has been sold to bona fide farmers and not to speculators or investors. Substantial initial payments have been made and the buyers are meeting subsequent payments promptly. The biggest demand for land recently is in Saskatchewan and Southern Alberta."

A man will give a dollar for a 50-cent article that he wants. A woman will give 50 cents for a 50-cent article that she doesn't want.

## Proves Mother Is

## Your Closest Friend

Jersey City, Mr. J. Paul writes: "I awakened each morning with an unpleasant taste and was often troubled by my mother that my breath was disagreeable. I tried perfumed tablets, mouth washes and other remedies which gave temporary relief. After consulting my dentist and finding my teeth in good condition, a friend suggested my trouble was caused by my mother's breath. I was told of Carter's Little Liver Pills, and I bought a box. After taking a few doses, my stomach and bowels were relieved, foul and impure gases eliminated."

Doughlass, 25 & 26 Red packages.

## Piloted By Young Aviator

Indianapolis Woman 104 Years Old Established New Record

Mrs. Mary Huffman, 104 years old, Indianapolis, set what was believed by local flying officials to be a world's record for the age of persons sitting in an aeroplane when she made a 15-minute flight. She was piloted by Farmer Parker, of Anderson, 15 years ago, and the world's youngest aviator. In the plane with Mrs. Huffman was her five-year-old great-grandson, Garret Davies.

## Bishop Will Use Aeroplane

Able To Reach Points In Haiti Otherwise Inaccessible

Missionary enterprise is shown by the announcement that Bishop Harry Roberts, of the Diocese of the Protestant Episcopal diocese of Haiti, is to fly from parish to parish in fulfilling his pastoral duties. The bishop is to make use of what aeroplanes in visiting parts of the island otherwise inaccessible.

## COMFORT DEPENDS ON GOOD DIGESTION

Weak Stomachs Can Be Made Strong Through the Use of Dr. Williams' Pink Pills

The sufferer from indigestion is greatly to be pitied. This trouble causes the sufferer to feel as if he is eating, as on the stomach, sour stomach and often vomiting after meals. The sufferer cannot get relief by cutting down his food to a starvation level. That only adds to his weakness. What is needed is better digestion, not a poorer diet. And the way to get a better digestion is to so enrich the blood that the stomach will do the work nature intended for it. As a tonic for building up the blood, Dr. Williams' Pink Pills in cases of indigestion. I could not eat and sleep, and often could not retain the food I ate. Only Dr. Williams' Pink Pills cured me. I was afflicted with this trouble, and I took a lot of doctors' medicine, but it did me no more than temporary relief. I also took other remedies recommended, with no better result. Then I read in a newspaper the case of a woman whose symptoms were like mine, who found new health through Dr. Williams' Pink Pills. At once I got a supply of these pills and had not taken them very long when I began to find relief. This encouraged me to continue the use of the pills and I can but say what they did for me by saying that they made me feel like a new man. Every trace of the trouble has disappeared and I can eat and enjoy my meals as well as anyone."

You can get these pills from any medicine dealer or by mail at 20 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## The Hudson Bay Route

Dominion of Canada Pledged to Carry Work to Completion

The fact is, of course, that every government in Canada for nearly forty years has advocated and turned the Hudson Bay route, and four successive prime ministers, two of them Liberals and two of them Conservatives, have, while in office, seen great sums expended on the enterprise.

The railway has, at great expenditure by successive governments, been carried to within seventy or eighty miles of Hudson Bay and awaits completion. It is to be completed, as it should be, and as public men of each and all parties assured the people of the west. It would be the talk in West Middlesex and elsewhere in Ontario and Quebec about the completion of this enterprise being a state, a waste, a burly, is quite the honest.

The acquisition of the Dominion are very much better than most politicians suppose. What is said in the west and is said in the east, politically, is overheard all across the Dominion with a distinctness that has nothing to be desired. The improved hearing of the country, which every body knows about it, will make for interesting talk in politics.—Toronto Star.

## Growth Of Wheat Pool

Chairman of Spillers Says Spread of Pool in Alberta is Cause of Retardment

Addressing the annual meeting in London of Spillers' Milling and Associated Industries, Chairman M. Baker stated that the wheat pool in Alberta had grown in an amazing way, so that it now represented between 70 and 80 per cent. of the wheat acreage of the province. Through its increasing market and greater control of the flow and marketing of wheat, the pool's bargaining power in regard to services rendered by the line elevator had grown. The result had reduced Spillers' interest in the line and terminal elevators to simply that of an investor. Therefore, it was decided to retire from that section, although the milling programme remains unchanged.

## Submarine Kills Whale

Conquers Big Whale in First Marine Battle of the Kind

In their first marine battle of the kind known the giant submarine V-1 and a converted monster whale. The submarine, and a few miles out of Provincetown, Mass., hovered at a depth of about 40 feet, a heavy shark shook the vessel. When it came to the surface, and then lay on deck and found a 50-foot whale, its back broken, wrapped around the bow. It was put out of its misery. The whale, which was responsible for much sickness and great suffering to humans of little ones.

Miller's Worm Powders can do no injury to the most delicate child, an infant, or infant in the state of adolescence. It is safe for women to take this preparation without a quinquin or any other medicine, and will find it a sure relief and a full protection from the most active pests, which are responsible for much sickness and great suffering to humans of little ones.

**Chinese Add To Industries**

Working Men Animal Bone For Making Many Articles

The Chinese have added to their industries by the use of their animal bones, allowing very few, if any, animal bones to go to waste. The largest section of the back leg of the cow is used for making many things, and Chinese workmen, despite their extensive use of imported material, maintain that the tle from the native bone is superior, lasting longer than that from the imported product. The ribs bones, only the upper part of the front three pairs from the cow and ox is used in making handles for knives, fans and similar articles. These three pairs are white and clean when properly treated, while the remainder are usually cartilaginous, and are used in the ribs. The third section of the rear bone in the sheep leg is used to make cigarette holders and pipe stems, and this bone, it is said, is the only one from the sheep which can be used in the manufacture of other things being fertilizer. Chinese pipes of this shape, which are extensively used in certain parts of the country.

## CHURCH BULLETIN

Rev. J. Lee announces the following services for Sunday next, May 16. 11 a.m.—Sunday School. 3 p.m.—Service at Blusson School. 7.30 p.m.—Public Worship. Mr. Lee will conduct all services.

A year ago a special effort was made to induce Mexican millers to purchase a portion of the wheat they must from Canada. During 1925 shipments were made through New York brokers and later direct from Canadian exporters through New York, on account of the cheaper freight rates. Now the shipments are made through Vancouver via the Panama canal to Vera Cruz and Tampico, which results in a saving of from 5 to 10 cents a bushel over other routes. This is now a market for Canadian wheat and promises to be an increasing one.

## League Game Next Wednesday

Local interest now centres in the first league game of base ball which will be played on the Champion grounds on Wednesday, May 19th, the game being called at 3.00. Staveley will oppose Champion and a real game may be confidently looked forward to.

Work on the baseball grounds is progressing rapidly, a large staff being in charge of the operations.

## Local and General

Harry Smith was a visitor in town and at his home on Wednesday.

Miss Esther Ferguson is in Calgary taking treatment for eye trouble.

F. L. Bassett has been ill during the week. Geo. Taylor relieving him on the dray line.

First league ball game of the season here on Wednesday, May 19th—Champion vs Staveley.

Mr. and Mrs. Manhard and Mr. and Mrs. Stephenson motored to the oil wells on Sunday.

Miss Covell, of Lethbridge, has succeeded Miss Gallington in the Canadian Bank of Commerce, the latter going to Edmonton.

All W. I. members are requested to remember the bazaar sale on Saturday evening. Have donations in Hoskins store by 7.30 if possible.

Mrs. Long's friends in Champion will be pleased to know that she is improving slowly, having been operated on on May 2nd for appendicitis.

Mrs. Archibald has the use of electricity in the premises she occupies and as a consequence is in a position to give the highest satisfaction in her line of work.

Rev. J. Lee and Mr. E. F. Crawford will be delegates to the Alberta Conference of the United Church, which will be held at Edmonton on Wednesday, May 19th and following days.

A correspondent reminds us that Miss Jessie Archibald is one of the candidates for queen of the Vulcan Fun Fests to be held May 22-24. The suggestion is passed to our readers with pleasure.

Golf is arousing the enthusiasm of both young and old this spring. Boys who were flying kites yesterday are playing golf to day, and staid men of middle age can scarcely take time to think of anything else.

Various interests concerned in Alberta are united with the Provincial Government in the attitude to be taken in connection with the investigation into freight rates to commence before the Dominion Railway Commission shortly.

The front of W. C. Hoskins' hardware store and Stephenson's grocery has been repainted with P. Daub handling the brush. The colors used were red and white with black trimming and the result is extremely gratifying.

Commencement will be made shortly on construction of the proposed branch line of the E. D. and B. C. railway northwest from a point near Busby, north of Edmonton. The line will traverse the Penbina Valley, a rich farming territory.

Canadian women's organizations are being asked to contribute to a fund to purchase a memento of Canada for Lady Byng prior to her departure for England. The wives of the lieutenant governors of the different provinces are taking charge of the matter.

E. Silor, the pitching standby of Champion for a number of years, is working with Milo this summer, but may pitch the opening game for Champion. "Si" will be missed here this summer, but what is our loss is bound to be Milo's gain.

The secretary of the Champion club was out on Sunday looking over the Yetwood baseball team in action. Shortstop Brooks and Pitcher Williamson, it is understood, may be offered a contract, while A. J. Ruggles may be asked to umpire the more important games here.
